Stage 5

Whiplash

Course Designer: Jordan Rogers

Whiplash is a 23 round, 115 point Comstock Long course. There are 11 metric targets and 1 steel target. The best two hits per target will score. Steel must fall to score. The start signal is audible.

The Handgun and PCC start position is sitting on stool with wrists above top of head. Handgun or PCC is unloaded, lying flat and unsupported on table with trigger guard over X, muzzle pointed down range. The first magazine to be used during the course of fire must be on the table at the start signal.

On the audible start signal, engage all targets as visible from within the shooting area.

Popper P1 activates the swinging target, which remains visible at rest.

All barrels are SOFT COVER.
